

## Selecting the Right Approach

Most instrument pilots will select an instrument approach at their destination based on which approach has the lowest minimums. There are other considerations that pilots should use when selecting the best approach. This seminar offers a set of criteria for selecting the best approach and applies them to a set of realistic scenarios. Don't miss this exclusive event. Click on the link below and register TODAY.

**Directions:** The Seminar will be held in the "Robins Nest" in between JLS Aviation and the Shannon Airport FBO. Enter through the Flight School side.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
